A note of thanks

M. Ossama Abdulghani¹, Mohammad S. Shehab², Hany Aref¹, Ayman Nassef¹, Ahmed M. Abdelalim^{3*}, Khaled O. Abdulghani^{4*}, Reda Badry⁵, Mona S. Kamel⁶ and Amr Elsamman³

At the end of this remarkable year, I wish to express my sincere gratitude, also on behalf of the other editors, the members of the editorial board and the publisher of *The Egyptian Journal of Neurology, Psychiatry and Neurosurgery* (EJNPN), to the referees of the articles considered for the 2021 volume of EJNPN. Hundreds of busy colleagues have spent their time in assessing close to 551 manuscripts submitted to our journal, up from around 308 in 2020, in selecting the ones that may possibly be published, and in improving the quality of the selected articles. Many of the reviewers have helped us in the past years as well, and we are tremendously appreciative and grateful to them. It is largely thanks to them that EJNPN is doing well in attracting and publishing articles in the field of clinical neurosciences, including neurology, psychiatry and neurosurgery. The journal presents cutting edge research on technical and clinical studies of health, ethical and social issues in the field of clinical neurosciences.
